Meet Your Provider

Meghan Russell, DNP
Family Medicine Nurse Practitioner

As a family nurse practitioner, Meghan Russell, DNP provides holistic care that is patient-centered and evidence-based. She believes that it's essential for patients and providers to collaborate in order to achieve common goals. Meghan strives to empower patients to be full partners in their health care.

She provides preventive health care and health maintenance, routine pediatric and adult care, as well as chronic disease and acute care management. Meghan also provides minor procedures in the office.
